HULKDESIGN AI

# Evidoc

Ask Your Documents. Trust Every Answer.

NIA Corporate Spark 2026 — Track 5: AI & Digital Platforms

# ⚠ The Problem

### 📄 Thousands of Documents

Thai law firms handle massive volumes of contracts, regulations, and policies. Finding specific clauses or cross-references takes hours of manual work.

### 🤖 AI Hallucinations Are Dangerous

Standard AI chatbots generate plausible-sounding but WRONG answers. In legal work, a hallucinated clause reference could be catastrophic.

### 🔍 No Traceability

Even when AI gives an answer, lawyers cannot verify it against the source document. There's no audit trail.

### ⏰ Competitive Pressure

Firms that can't leverage AI for document review will lose to those that can — but only if the AI is trustworthy.

# 💡 Our Solution — Evidoc

### 🛡️ Zero Hallucination

AI that finds answers deterministically through a Knowledge Graph — no guessing, no making things up.

### 🔗 Click-to-Verify Citations

Every answer includes sentence-level citations. Click any citation → see the exact words highlighted on the original PDF.

### 🧠 Knowledge Graph Technology

Maps relationships across ALL your documents — entities, clauses, cross-references — creating a connected intelligence layer.

### 🌏 Built for Thailand

13 UI languages including Thai, auto-translation, speech input. Enterprise-grade security with data isolation.

# ⚙ How It Works

1

### 📄 Upload Documents

Upload private documents in 15+ formats — PDF, DOCX, XLSX, PPTX, images, and more. Up to 50MB per file.

2

### 🧠 AI Builds Knowledge Graph

AI automatically extracts entities, relationships, and communities. Maps connections across all documents.

3

### ✅ Ask & Verify

Ask questions in natural language. Get verified answers with click-to-trace citations back to source documents.

# 🚀 Technology Differentiator

- ✓ Proprietary Knowledge Graph with multiple specialized retrieval algorithms that automatically adapt to each query type
- ✓ Smart Auto-Routing — AI classifies each query and picks the optimal retrieval strategy automatically
- ✓ Deterministic Retrieval — answers traced through the knowledge graph, not hallucinated
- ✓ Sentence-Level Polygon Tracing — pixel-accurate PDF highlighting from OCR word-level geometry

**93.8%**

Cross-document accuracy

# 🏛️ Thai Market Opportunity — Legal Sector

| 80,000+ | 2,000+ | Growing | 13 |
|---|---|---|---|
| Registered lawyers in Thailand | Law firms nationwide | Legal tech adoption trend | Languages supported |

- → Contract review & clause extraction across thousands of documents
- → Due diligence requiring cross-referencing multiple document sets
- → Compliance checking against evolving Thai regulations
- → Evidoc reduces hours of manual review to minutes — with full traceability

# 💼 Business Model

## Free

Try Evidoc

Limited queries
5 documents
Basic search

## Starter

Small teams

More queries
50 documents
All search modes

## Professional

Growing firms

Unlimited queries
500 documents
Priority support

## Enterprise

Large firms

Custom limits
Unlimited docs
Dedicated support
SSO & RBAC

Revenue: SaaS subscriptions + per-query credits for heavy usage

**Target: 5–10 Thai law firm pilots in Year 1**

# 📊 Traction & Readiness

**TRL 9**
Fully deployed production system

**15+**
Document formats supported

**13**
UI languages with auto-translate

**93.8%**
Benchmark accuracy on inconsistency detection

- ✓ Live production system: evidoc.hulkdesign.com & evidoc-enterprise.hulkdesign.com
- ✓ Enterprise-grade: Azure AD authentication, RBAC, multi-tenant data isolation
- ✓ Multiple specialized retrieval algorithms — benchmarked and optimized
- ✓ Speech input, auto-translation, and cross-document Q&A ready

# 🤝 What We're Looking For

## 🏢 Thai Corporate Partner

Law firm, bank, or enterprise with legal/compliance document needs

## 📋 6-Month Pilot Program

Onboard partner's document corpus, measure time savings vs. manual process

## 🎯 Validation Goal

Prove 10x faster document review with full traceability and zero hallucination

# 👥 Team

## 2-Person Founding Team

Deep expertise in AI, knowledge graphs, and enterprise SaaS.

Built the entire Evidoc platform end-to-end — from document processing and graph algorithms to production deployment on Azure.

# 🎯 The Ask

### Thai Corporate Partner

For NIA Corporate Spark co-application and market validation

### NIA Matching Grant

Up to 5 Million THB for pilot implementation

### 6-Month Timeline

To validated product-market fit in Thailand's legal sector

# Thank You
